

greetings music lovers!

Just a quick note to say hello and let Y'all know what Carey has been up to. Still working on the new cd release of **HUMAN HEART**. A labor of Labor and Love! Check out this recent blog reviewing a couple of songs from the **HUMAN HEART** sessions. Check out the poster enclosed for imminent activity.

We are reaching out to our street team in preparation for the cd release. If you have volunteered, or would like to, please give us a shout to connect / re-connect. If you are a fan in general and would like to assist in getting the word out about Carey please take a little time out to use your social media skills to spread the word throughout facebook, twitter etc.

Please check out this new site <http://www.music-oasis.com/>. Unfortunately it seems like it can't be accessed if you're using an Apple. It's a PC download. If you get to it you'll be able to download two songs of Carey's. Thanks for reading this update. Happy Summer Holidays! Happy days in general!

cheers! – g
